11 Months in New Orleans: Serving, Leading & Living Together

8 Young Adults: Find Community, Explore Spirituality

Join us for a year of service work and community living in post-Katrina New Orleans. Be a part of positive change; dirty your hands and challenge your faith. Live life out loud and on purpose. Work and live together with 7 others, all focused on serving the community and developing a deeper connection to self and others. We're looking for passionate, adventurous people to help rebuild homes, revitalize communities, and work for justice and equity. With team members, you will begin to create community among yourselves and with your neighbors; you will also develop your potential as a leader. Put your boots on the ground in New Orleans and find your calling here.

Live on purpose
